Opens New Doors

**For Your
QSR Business!**

What is ONDO-matic?

ONDO-matic is a U.S and International patented technology temperature-controlled locker system for efficient food pickup & delivery. The units change from hot, cold, or ambient temperatures with the flip of a switch.

Industries **We Serve**

- ◆ Quick Service Restaurants

Want to Go Truly *Hands-Free?*

The addition of motorized, touch-less doors makes the ONDO® unit a contact-less experience.

State-of-the-Art Technology

- ◆ The units can work with your **current ordering app**
- ◆ RPI connects you to a technical representative to **transition easily**

My quick-service restaurant was struggling to keep orders fresh while waiting for the delivery driver or customer. We serve wings so the chilled dipping sauces and vegetables were getting warm and customers were complaining. ONDO-matic units solved the problem by keeping each food item at the right temperature.

Convenience

- ◆ People want **efficiency** in their busy lives
- ◆ Touchless lockers are a resource for customers who are **on the go**
- ◆ Think of this as a **self-checkout lane** for dining

Our shop sells a wide variety of products, from coffee to ice cream. The ONDO® lockers keep all orders at the ideal temperature and make it easy for customers to pick up their correct order without interacting with staff.

Fun

- ◆ Tap into the **“wow” factor** with state-of-the-art technology
- ◆ **Stand out** in a competitive market with technology that sets you apart
- ◆ Add to your **marketing message**

People are excited to try our new ONDO® unit. We advertised the lockers on our website and on signage throughout the store. Guests enjoy trying something new and are impressed by the new tech.

Profitable

- ◆ **Add income** without adding new employees
- ◆ ONDO-matic lockers allow you to **keep food fresh** while additional orders are prepared
- ◆ Increase your output

The ONDO[®] units minimized crowding, waiting in line at peak order times, and delivering a convenient solution. Customers have been extremely happy with ONDO-matic units and the mobile app's functionality. Last quarter, over 16,000 orders were executed through the food lockers.

Customized Design

- ◆ Modular build allows simple integration of different-sized lockers to suit your needs

My business sells large, family-style meals and the ONDO® lockers made it easy to accommodate the containers we use. Now, my staff focuses on making the food rather than running it to the customer.

Customized Design

- ◆ Lockers are available in configurations of **8x12, 12x12, & 12x16**
- ◆ Units can be **loaded from the front or rear**, making them convenient as a standalone option or when backed up against a kitchen
- ◆ Installation can be **entirely indoor or outdoor-facing**. A game-changer for tight spaces
- ◆ Customized design capabilities to **match your branding**

Staffing Solution

- ◆ The ONDO® unit **reduces your need for staff**
- ◆ Units can sync with your **current POS system**

FF

We opened our fast-casual restaurant during the pandemic when margins were even tighter than normal. To cut costs, we installed an ONDO® unit, which has reduced our typical labor costs from 30% down to 18%.

Rethink **How You Do Business**

Much has changed in the last two years. ONDO-matic helps you **evolve** with the market shifts in a **unique and innovative way.**
